Marrakech, Morocco

PROFILE

Experienced web developer with 5 years of experience, specializing in WordPress site creation, and proficient in front-end JavaScript frameworks such as ReactJS and Next.js. My expertise spans both frontend and backend development, ensuring dynamic and visually appealing websites tailored to meet client needs.

SKILLS

- **Languages:** Fluent in both written and conversational French and English, with proficiency in Arabic and Tamazight inherited from my parents.
- **WordPress:** Installation and configuration, migration, optimization, customization of themes, as well as development of themes and plugins.
- **HTML, CSS, JavaScript:** Outstanding mastery of HTML/CSS/jQuery and responsive design. Moreover, I have foundational familiarity with ReactJS, NextJS, and VueJS.
- **PHP/MySQL:** Proficient in PHP for WordPress development, with particular expertise in database management.
- **Security/Debugging:** Implementing safeguards against vulnerabilities and securing systems, with advanced skills in debugging and performance optimization.
- **SEO:** Deep expertise in search engine optimization, implementing effective SEO strategies to enhance online visibility and performance.
- **UI/UX Design:** Detail-oriented with pixel-perfect precision, while integrating user experience principles. Practical experience with Adobe XD and Figma.
- **Other:** Ready to tackle challenges, learn new skills, and work with other technologies and frameworks such as Java EE, ASP.NET, Node.js, Django Python, and many more.

PROFESSIONAL EXPERIENCE

WordPress Developer (Production)
